DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 61, 108, 115, 117 and 146 are drawn to the Toy.

Group 2, claim(s) 61-69, 108, 109, 114-118, and 146 are drawn to the Toy with an encoder with spreading means.

Group 3, claim(s) 61 - 63, 70 - 83, 108, 109, 114 - 118 and 146 are drawn to the Toy with an encoder with scaling means.

Group 4, claim(s) 61 - 63, 108 - 118, 133, 134, 138 and 146 are drawn to the Toy with an encoder with audio track details.

Group 5, claim(s) 61, 84 - 89, 90 - 98, 100, 108, 115, 117, 119 - 132, 135 - 137 and 146, drawn to the Toy with a decoder that includes a synchronization circuit that includes a normalization circuit that includes correlator details.

Group 6, claim(s) 61, 101 - 108, 115, 117, and 139 - 146, drawn to the Toy with response means.

The inventions listed as Groups 1 - 6 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: an encoder with spreading means is a special technical feature and an encoder with scaling means is another unrelated special technical feature and an encoder with audio track details is

another unrelated special technical feature and a decoder that includes a synchronization circuit that includes a normalization circuit that includes correlator details is another unrelated special technical feature and response means are another unrelated special technical feature.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
